Viper 6.8

The Viper delivers a massive 7.3 square metres of open floor space when stripped down for fishing action, but the same boat can be converted into an elegant social sports boat in minutes. A stow-away table can be located in the spacious bow area with movable/removable lounges which can be set up in numerous configurations to seat seven people together comfortably.

A remarkable set of modular soft covers are available, which allow the owner to set it up with cuddy cab, wheelhouse, full cabin or full camper protection. With the space for seven inflatable mattresses on the floor, it is truly one of the most versatile boats ever produced in Australia.
